"Our school is where tomorrow is rehearsed with every experiment, idea and act of kindness."

"Our magazine is not just a collection of words – it's a mirror of who we are, and a map of who we aspire to be."

With determination and the will to succeed, our school commenced operations in the 2004-05 academic session. Since then, our aim has been the holistic development of the personality of our students, i.e., academically, physically, and intellectually. We always strive to provide a homely atmosphere to the children in the school so that we can instill strong values during this impressionable age. According to psychologists, the learning capacity of a child is highest up to the age of five years. This comfortable learning environment makes them fully equipped to face the challenges and competitions of life.

It is natural for parents to have apprehensions during the admission phase, but we assure you that all your anxieties will be put to rest within a couple of weeks. Small Wonder Education Society believes in helping and enabling children to discover their potential and utilize it to the maximum. It is our wish that the students of Small Wonder Public School become strong pillars of society and provide direction to our nation. The biggest reward for the school and staff will be to hear these kids proudly declare, "This was my first school."

The school building and infrastructure are unique, with top-class facilities such as Smart Classrooms, the latest audio-visual educational aids, and a bright and cheerful ambiance. Small Wonder Public School was the first school in Hisar to receive ISO 9001:2015 certification for quality education and management. Within a short span of time, we have crossed many milestones, and our students have achieved tremendous success in every sphere. This has been possible due to the wholehearted support from parents, and we hope to continue receiving the same kind of support in the future.

With our sincere efforts and your cooperation, the school is growing rapidly. Rest assured, we will leave no stone unturned for the overall development of our students. Our dreams can come true only with your faith in the institution and the blessing of our ancestors to whom we have dedicated this school.
